PAOLI, Pa. (June 30th, 2018) – The non-profit construction management community continues to benefit from a program setup by AmericanTrucks.com. The aftermarket auto parts shop has selected two more charities to receive a \$2,000 grant through their light-duty pickup truck grant program: Positive Payload. The initiative seeks to support organizations whose missions’ benefit local communities through the leverage of tradespeople and their hard-working equipment.

Launched in May 2017, the program has already financed \$12,000 worth of assistance in its efforts, with recent recipients including [The Rodney Scout Reservation](#) and [Keystone Contractors](#). After reviewing the submissions for this round, AmericanTrucks is announcing Summer 2018 Winners: *Construction for Change* and *Rebuilding Together Montgomery County* (MD).

Construction for Change (CFC), a Seattle, WA based-organization, believes every building provides an opportunity to improve the health, education, or economic mobility of everyone in a community. From schools to medical facilities, these are the spaces where they focus on managing non-profit construction projects. CFC builds world-class facilities in the U.S. and abroad where people can exchange information, discuss ideas, and access life-improving services.

Rebuilding Together Montgomery County (RTMC) is a nonprofit affordable housing organization that provides free safe and healthy home repairs, energy efficient upgrades, and accessibility modifications to low-income homeowners in Montgomery County, Maryland. RTMC operates as a member of the Rebuilding Together affiliate network. RTMC is bringing hope to veterans, elders, people with disabilities, and families with children. Without their services, these households run the risk of losing the only affordable housing option available to them.

The AmericanTrucks team extends sincere congratulations to all the Positive Payload grant recipients for 2018 as it looks forward to awarding four more organizations in 2019.

About AmericanTrucks

AmericanTrucks is the number one leader in providing aftermarket parts and accessories for Chevrolet Silverados, GMC Sierras, Dodge Rams, and Ford F-150s. Catering to the needs and demands of late-model truck owners and enthusiasts, AmericanTrucks provides the most desirable parts with the highest level of customer service. Located just outside of Philadelphia, AmericanTrucks is dedicated to offering the truck community with the highest quality of parts and service.
